Part X

Learning Resources and Curated Knowledge Base

> *"A rigorous course is not defined by the number of readings assigned, but by the quality of the intellectual conversation those readings create."*

Overview

This course uses a curated knowledge base rather than a single textbook. The readings are organized around a dialogue between classical strategic management theory and contemporary research on artificial intelligence, organizations, and digital transformation.

Students are expected to read each assigned work not only for content, but for its assumptions, limitations, and implications for strategic leadership in AI-enabled organizations.

Required Books

Iansiti, M., & Lakhani, K. R. (2020). *Competing in the age of AI: Strategy and leadership when algorithms and networks run the world*. Harvard Business Review Press.

Agrawal, A., Gans, J., & Goldfarb, A. (2018). *Prediction machines: The simple economics of artificial intelligence*. Harvard Business Review Press.

Agrawal, A., Gans, J., & Goldfarb, A. (2022). *Power and prediction: The disruptive economics of artificial intelligence*. Harvard Business Review Press.

Lafley, A. G., & Martin, R. L. (2013). *Playing to win: How strategy really works*. Harvard Business Review Press.

Foundational Strategy Canon

Porter, M. E. (1996). What is strategy? *Harvard Business Review, 74*(6), 61–78.

Barney, J. B. (1991). Firm resources and sustained competitive advantage. *Journal of Management, 17*(1), 99–120. https://doi.org/10.1177/014920639101700108

Wernerfelt, B. (1984). A resource-based view of the firm. *Strategic Management Journal, 5*(2), 171–180. https://doi.org/10.1002/smj.4250050207

Harvard Business School Cases

Wu, A., Higgins, M., Zhang, M., & Jiang, H. (2023). *AI Wars*. Harvard Business School Case 723-434. Revised February 2024.

Avery, J., & Steenburgh, T. (2018). *HubSpot and Motion AI: Chatbot-enabled CRM*. Harvard Business School Case 518-067. Revised October 2019.

Kerr, W. R., & Palano, J. (2019). *Osaro: Picking the best path*. Harvard Business School Case 820-012.

JPMorganChase: Leadership in the Age of GenAI. (2025). Harvard Business Publishing Case 325-066.

Wu, A. (2025). *AI Wars in 2025*. Harvard Business Publishing Case 725-484.

Recommended Executive and Practitioner Sources

Students should regularly consult the following sources to understand how executives, consultants, and technology leaders are interpreting AI strategy in real time.

- *Harvard Business Review*
- *MIT Sloan Management Review*
- McKinsey Global Institute
- BCG Henderson Institute
- Bain & Company Insights
- Deloitte Insights
- PwC Strategy&
- IBM Institute for Business Value
- Microsoft AI
- NVIDIA AI
- Stanford Institute for Human-Centered Artificial Intelligence
- Brookings Institution AI Governance Research
- OECD AI Policy Observatory

Recommended Journals

Students interested in deeper scholarly work should regularly consult:

- *Strategic Management Journal*
- *Academy of Management Journal*
- *Academy of Management Review*
- *Academy of Management Perspectives*
- *Academy of Management Discoveries*
- *Organization Science*
- *MIS Quarterly*
- *Information Systems Research*
- *Journal of Management*
- *Journal of Business Research*
- *California Management Review*

- *Business Horizons*
- *Harvard Business Review*
- *MIT Sloan Management Review*

AI Tools for Course Use

Students may use approved AI tools to support research, analysis, drafting, reflection, and executive communication. Tool use must comply with the course AI policy.

Recommended tools include:

- ChatGPT
- Claude
- Perplexity
- NotebookLM
- Microsoft Copilot
- Google Gemini
- Elicit
- Scite
- Consensus

Optional technical tools for advanced students include:

- Python
- Jupyter Notebook
- Marimo
- DuckDB
- Power BI
- Tableau

Library Databases

Students should use university library access to retrieve peer-reviewed scholarship and business cases.

Recommended databases include:

- Business Source Complete
- ABI/INFORM
- JSTOR
- Web of Science
- Scopus
- ScienceDirect
- ProQuest
- Emerald Insight
- SAGE Journals
- Wiley Online Library
- INFORMS PubsOnline
- Harvard Business Publishing Education

Suggested Weekly Reading Logic

Each week pairs one classical strategy reading with one contemporary AI or organization reading.

Week	Classical Reading	AI / Organization Reading
1	Porter (1996)	Hutzschenreuter & Lämmermann (2025)
2	Barney (1991)	Rai, Constantinides, & Sarker (2019)
3	Teece, Pisano, & Shuen (1997)	Tschang & Almirall (2021)
4	March (1991)	Jarrahi (2018)
5	Grant (1996)	Shrestha, Ben-Menahem, & von Krogh (2019)
6	Prahalad & Hamel (1990)	Dellermann et al. (2019)
7	Williamson (1979)	Kellogg, Valentine, & Christin (2020)
8	Wernerfelt (1984)	Murray, Rhymer, & Sirmon (2021)
9	Teece (2007)	von Krogh (2018)
10	Eisenhardt & Martin (2000)	Makarius et al. (2020)

How Students Should Use This Knowledge Base

Students should not treat this chapter as a passive bibliography. It is a working intellectual toolkit.

For each assigned reading, students should ask:

1. What is the central theoretical contribution?
2. What assumptions does the author make?
3. What organizational problem is the reading trying to solve?
4. How does AI reinforce, extend, or challenge the reading?
5. What would this theory look like if rewritten for AI-enabled organizations?

The knowledge base supports the central objective of the course: helping students move from learning strategy to participating in the evolution of strategic management itself.
